1 Section 1. a) The several amounts specified in this chapter for capital projects, or so much thereof as shall be necessary to accomplish the
2 purpose of the appropriations, are appropriated by comprehensive
3 construction programs (hereinafter referred to by the abbreviation CCP),
4 purposes, and projects designated by the appropriations, and authorized
5 to be made available as hereinafter provided to the respective public
6 officers; such appropriations shall be deemed to provide all costs
7 necessary and pertinent to accomplish the intent of the appropriations

1 and are appropriated in accordance with the provisions of section 93 of
2 the state finance law.

3 b) Any amounts specified in this chapter for advances for capital
4 projects, or so much thereof as shall be necessary to accomplish the
5 purpose of the appropriations, are appropriated by comprehensive
6 construction programs (hereinafter referred to by the abbreviation CCP),
7 purposes and projects designated by the appropriations as advances from
8 the capital projects fund in accordance with the provisions of sections
9 40-a and 93 of the state finance law, and are authorized to be paid as
10 hereinafter provided as an advance for a share, part or whole of the
11 cost for such programs, purposes and projects hereinafter specified.

12 c) The several amounts specified in this chapter as capital projects -
13 reappropriations, or so much thereof as shall be sufficient to accom-
14 plish the purpose of the appropriations, as appropriated by comprehen-
15 sive construction programs (hereinafter referred to by the abbreviation
16 CCP), purposes, and projects, being the undisbursed and/or unexpended
17 balances of the prior year's appropriations, are reappropriated and
18 unless otherwise amended or repealed in part or total in this chapter
19 shall continue to be available for the same purposes as the prior appro-
20 priations or as otherwise amended for the fiscal year beginning April 1,
21 2026.

22 The capital projects reappropriations contained in this chapter may be
23 amended by repealing the items set forth in brackets and by adding ther-
24 eto the underscored material. Certain reappropriations in this chapter
25 are shown using abbreviated text, with three leader dots (an ellipsis)
26 followed by three spaces (...) used to indicate where existing law
27 that is being continued is not shown. However, unless a change is clear-
28 ly indicated by the use of brackets [-] for deletions and underscores
29 for additions, the purpose, amounts, funding source and all other
30 aspects pertinent to each item of appropriation shall be as last appro-
31 priated.

32 For the purpose of complying with section 25 of the state finance law,
33 the year, chapter and section of the last act reappropriating a former
34 original appropriation or any part thereof is, unless otherwise indi-
35 cated, chapter 54, section 1, of the laws of 2025.

36 d) No moneys appropriated by this chapter shall be available for
37 payment until a certificate of approval has been issued by the director
38 of the budget, who shall file such certificate with the department of
39 audit and control, the chairperson of the senate finance committee and
40 the chairperson of the assembly ways and means committee.

41 e) Notwithstanding any provision contained herein or any other law to
42 the contrary, if, on a cash basis of accounting, a general fund imbal-
43 ance has or is expected to occur in fiscal year 2026-27, the budget
44 director is hereby authorized to withhold all or some of the amounts
45 appropriated herein, including amounts that are to be paid on specific
46 dates prescribed in law or regulation. Prior to withholding any amounts,
47 the director shall consider whether other means are available for accom-
48 plishing the purposes of this provision. Provided further, the director
49 shall consider the impact of any such amounts to be withheld. To the
50 extent the state is obligated to make payment to any individual or enti-
51 ty pursuant to any appropriation contained herein, such obligation shall
52 be reduced commensurate with such payments withheld by the director of
53 the budget.

54 The following types of appropriations shall be exempt from such with-
55 holds pursuant to this provision: (a) public assistance payments for
56 families and individuals and payments for eligible aged, blind and disa-

bled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt service or is contractually obligated to pay debt service, subject to an appropriation, including where the state has a contingent contractual obligation; and (d) payments the state is obligated to make pursuant to court orders or judgments.

For purposes of this provision, a general fund imbalance shall occur if any state fiscal year 2026-27 quarterly financial plan update required by subdivision 4 of section 23 of the state finance law reflects, or if at any point during the final quarter of state fiscal year 2026-27 the budget director projects, that estimated general fund receipts and/or estimated general fund disbursements have or will vary from the estimates included in the state fiscal year 2026-27 enacted budget financial plan required by sections 22 and 23 of the state finance law results in a cumulative budget imbalance of \$2,000,000,000 or more. Provided however, that such \$2,000,000,000 must be calculated without considering any payments withheld in accordance with this provision or any depletion of the state fiscal year 2026-27 transaction risk reserve accounting mechanism.

"Estimated general fund receipts" shall mean general fund tax receipts, after payment of debt service and miscellaneous receipts estimated by the budget director to be received during state fiscal year 2026-27.

"Estimated general funds disbursements" shall mean general funds disbursements, including transfers, estimated by the budget director to be made during state fiscal year 2026-27.

No later than ten business days following the issuance of any state fiscal year 2026-27 quarterly financial plan update that includes a determination, and/or the date in the final quarter of the state fiscal year 2026-27 upon which the budget director determines, that a general fund imbalance exists, the budget director shall provide notification of payments that will be withheld pursuant to this provision to the president pro tempore of the senate and the speaker of the assembly. Provided, however, the aggregate amount of payments withheld pursuant to this provision shall at no point be in an amount greater than the determined cumulative general fund imbalance. Provided further however, before any payments may be withheld pursuant to this provision, the budget director shall first deplete the \$2,000,000,000 transaction risk reserve accounting mechanism to resolve the determined general fund imbalance, as practicable. Such notification will also identify any other means the budget director intends to use to resolve any portion of the general fund imbalance, including but not limited to the aforementioned depletion of the transaction risk reserve and/or any other resources.

Following such budget director notification, the legislature shall have ten business days to prepare and adopt by concurrent resolution its own withhold plan which conforms with the requirements of this provision, and which achieves the same aggregate of payment withholds as the budget director's withhold plan. If after ten business days following the budget director's notification the legislature fails to prepare and adopt its own withhold plan, or if the budget director determines that the withhold plan prepared and adopted by the legislature does not conform with the requirements of this provision, the withholds identified in the budget director's withhold plan will immediately take effect.

1 Notwithstanding any other provision contained herein or any other
2 provision of law to the contrary, any payments withheld pursuant to this
3 section may be paid in full or in part if a subsequent general fund
4 surplus materializes in state fiscal year 2026-27.
5 f) The appropriations contained in this chapter shall be available for
6 the fiscal year beginning on April 1, 2026 except as otherwise noted.
